

What changed between R1.0 and R2.0?

Cover	Title of document changed from CAD Drafting Standard to A/E/C Graphics Standard
Throughout	Chapter/section numbers added to all major paragraphs/sections for ease in locating particular sections
Throughout	Figure numbers changed to a Chapter - Sequence format so if a figure needs to be replaced or added later, don't need to renumber all subsequent figures
Page 1	BIM and CIM added to list of acronyms, FAC removed from list
Page 2	E-mail for sending recommendations or suggestions revised
Chapter 2	Chapter on Border/Cover Sheets added. Specifics about what and where items should go in border and cover sheets provided. Note: some of this information was removed from the A/E/C CAD Standard document and moved into this document because it was more applicable.
Chapter 3	Chapter 2 "Coordinate System" and Chapter 3 "Orientation" from R1.0 combined into one chapter "Orientation"
Chapter 3	Section on Project Coordinate System broken out into Horizontal and Vertical systems
Chapter 3	In the Horizontal Project Coordinate System section, figures added to clarify how to do these types of PCS
Chapter 3	Information on column grids, floor numbering, room numbering, door numbering, window identification, stair numbering, elevator numbering, and duct labeling moved from other sections into this Chapter
Chapter 4	Drawing symbology Chapter moved from Chapter 7 to Chapter 4
4.2.2	Letter sizes for symbols changed to a minimum height of 3/32"
4.2.3.4	Figure for North arrow updated to most current version of symbol
4.3	Linework (originally in its own chapter) moved into the Symbology chapter
Chapter 5	Dimensions in Drawings (Chapter 5) and Text in Drawings (Chapter 6) compiled into one chapter
Figure 5-1	Figure added to show where General Notes go on a Border Sheet
5.1.2	Information from the A/E/C CAD Standard on abbreviations moved into this section, to avoid duplication of information
5.1.4	Information about placing text in patterned areas and text justification added
5.1.5	Font and text height information moved from A/E/C CAD Standard into this document because more applicable
5.2.2	Graphic setting information for dimensions updated. Figures updated as well
Figure 5-9	Fraction format figure updated
5.2.6	Information on graphic settings for dimensions added
6.2	Information on graphic settings for schedules updated
6.3	Information on importing Excel spreadsheets in as schedules added
7.3	Revision (Issue) Block information added to this section to provide information on how revisions should be shown on a Border Sheet
